

Coach : Mr. Maqbool Mohammad

This year has been amazing in terms of sports looking at the way our boys have played and the facilities we have added. A very big achievement of the school especially is the sprawling new 9-hole Mayo Golf Course that has started playing this year after an impatient wait.

It is very encouraging to see the luxuriant greens blushing all along the fairways and the smooth greens for all nine holes that are functional. The gradually filling up water hazards have added to the luxury of the course which is also doubling as our new Eco Park.

The response to golf has been beyond expectations in the very first year as more than 40 boys have enrolled for the coaching along with about 20 girls who are coming from the other side of the school. The newcomers are learning about grips on the clubs and testing the range of clubs with different numbers presently on the driving range whereas those who had started taking lessons last term are confidently playing the holes already, some on par as well.

It has all been so rewarding in a short span with the help of a pro golfer we have amongst us coaching the boys, Mr. Maqbool Mohammad who has played extensively on different circuits in Delhi. We plan to start sending out our players to competitions outside the school soon.

We need to thank Mr. Ranjit Nanda for designing the Golf Course, Late Mr. Jasmeet Singh for his invaluable help and Lt. Gen. Aditya Singh for dreaming about this Golf Course and making it a reality.
