

Life Skills / Mayoor Society

Teacher-In-Charge : Mr. Vijay Dutta

Life Skills enable children to develop a positive attitude for promoting right thought and action. How important then it becomes that we perfect these skills to our greatest possible advantage. These are assets of inestimable value.

We reached a major milestone in a long journey this year when we designed three tests to measure Life Skills, Emotional Intelligence and Scientific Attitude. The society is measuring these skills amongst various groups of students. By understanding Life Skills and Emotional Intelligence better, we hope that the students will have an improved constructive conflict resolution with peers.

Mayoor Society

Mayoor today wears a new look with the imagination and hard work of the student editors of the previous batch of class 12 namely, Ayushman Mitra, Ankit Grover, Devvrath Bhartia and Aditya Garg who clicked a new artistic photographs and with which the pages of Mayoor were adorned. The work continues and new member have joined the editorial board. This quarterly news letter continues to reach the hands of all old readers that await it eagerly. Mayoor cover a wide range of topic: news, mails, reports, literature and arts providing an apt platform to the boys to grow.
