

## Math Club

The Math Club organized various activities during the academic year. Apart from the Math Club meetings for enhancement of mathematical environment, the following activities were undertaken during the year :

- Macmillan test was conducted for classes 7th, 8th, 9th & 10th to test the scholastic skills of students. The club also helped boys prepare for the NTSE exams.
- Puzzles, interesting problems, cross words and Sudoku were discussed during the society meetings to create interest in the subject.
- Charts, models and concepts of Math lab discussed during the club meetings were associated with day to day teaching and learning to create impact of the subject in the minds of young learners.

**Teachers-In-Charge :** Mr. P. K. Ranwaka, Mr. N. K. Dixit, Mr. D. K. Soni, Mr. V. J. Kanwar, Mr. M. K. Gaur, Mr. B. C Pande

## Photography

**Teacher-In-Charge :** Mr. Alok Sharma  
**President :** Anuj Khandelwal

Photography grew as a passion amongst many, this year. Not just the maximum number of students joined the club but their enthusiasm was clearly seen when at least ten boys sent photographs clicked by them for various competitions such as Better Photography's- Photographer of the year contest, National Geographic etc.

Last year's contribution of a black and white enlarger by H.H. Maharao Brijraj Singh of Kotah has been utilized quite well.

Many students have clicked amazing photographs which is why students namely Sambhav Palawat, Akshay Kumaria and Darshnik Brar were specially interviewed by the Rajasthan Patrika for their special issue on 'National

Photography Day'.

Photography in Mayo has attained new heights with new advancements in technology, new digital cameras, enlargers and printers. Students of the club also visited many nearby places apart from Pushkar and Jaipur to learn group and landscape photography. Apart from this many painters have also shown keen interest in clicking photographs which would further help them with their imagination for painting.
